

YOU'RE TIRED OF IT, AREN'T YOU?

OF GIMMICKS, OF FLUFF, OF PREDICTABILITY.

IF YOU'VE READ ONE BOOK TODAY, YOU'VE READ THEM ALL.

BUT YOU HAVEN'T READ THIS.

A group of soldiers in futuristic armor are shown in a sci-fi environment. One soldier in the foreground is holding a rifle, while others are behind him. The scene is lit with orange and blue light beams.

WHY THE EPIC SERIES WILL BLOW YOU AWAY...

First, let's be clear: this is not a series that's trying to impress you. This is a series that unapologetically is what it is. What does that mean?

It means this is a story. Not an agenda. Not a gimmick.

It's set in science-fiction, but if you're looking for quarks and string theory, go read something else. **This is for people who want a blockbuster experience.** This isn't the kind of story you get cozy by the fire for. This is a story that lives for fist-pumping moments. It's a series that never pulls punches. It's for the emotionally-invested.

Epic is a universe that's going places and doing things. It's not part of the "book club" clique. But that's not what you want, anyway. You want something relatable and real. You want something that's not like anything else. You want this.

Begin with *Dawn of Destiny*. Ride it into *Outlaw Trigger*.

THEN NEVER LOOK BACK.

1 *DAWN OF DESTINY* kicks off the story of Scott Remington, a young man following a calling to war. Sacrificing a promising life that could've been, he embarks on a journey to follow his destiny and make a difference regardless of where it takes him.

2 *OUTLAW TRIGGER* takes Epic down a path that explores the darkness of the human condition. Anyone who thought Epic was a feel-good tale thought wrong. This is where things get serious. This is where it begins.

3 If Epic is a race track, *HERO* is the pace car, setting the tone for the rest of the series. On the heels of emotional devastation, the crew of Epic sets off a journey to redemption. But at what cost?

4 *THE GLORIOUS BECOMING* ... well, this book just has to speak for itself. Just take everything you thought you knew about Epic and toss it. This whole series just got flipped on its head.

WHAT EPIC ADDICTS SAY ABOUT THE BOOKS

*"I just finished reading **DAWN OF DESTINY** and I haven't enjoyed a book this much in a while. The story is solid, it keeps the reader engaged and interested and never veers off far enough to lose your interest. Lee Stephen does an excellent job at connecting the reader to each of the characters; you don't just read about them you feel for them, experience their ups and downs, and hope for their success."*

- John D. Olmstead

"This is the best science fiction series right now. I look forward to each book immediately after finishing the last one."

- J&C Bierce

*"As the climax of **OUTLAW TRIGGER** draws near, the darkness inhabiting Scott's soul seems to seep into our very own; we feel as he feels, and when the surprising twist (I will not give it away!) occurs, we feel the shockwaves in our very cores. This kind of writing is powerful and rare, a true testament to author Lee Stephen's talent."*

- Matthew S. Baker

"He takes some unexpected but not unwelcomed turns with this third installment, and I think that every person that reads this book will come away not only impressed with the story that Lee has masterfully laid out, but thirsty for more. I personally cannot wait until the next installment is released.

*I give **HERO** a perfect 5/5."*

- Joshua M. Anderson

"From page one to page 322, you'll find hardly a wasted word. The story moves, and then it smokes, and then it screams."

- Robert M. Fanney

*"This is one of the best books I have ever read. If you have not read the first three books in the Epic series, you should, if only to then be able to taste the pure brilliance and genius writing in **THE GLORIOUS BECOMING**. It has the best dialogue, best character development, best ending, and such superb writing that you will feel as if you have your own bunk in Room 14. You are emotionally drawn into the story and must remind yourself that this is only fiction, simply because the characters are real, and YOU CARE."*

- SopaterTheBerean

WHO CREATED THE EPIC UNIVERSE?

MEET LEE STEPHEN

Born and raised in Cajun country, Lee Stephen spent his childhood paddling pirogues through the marshes of South Louisiana. When he wasn't catching bullfrogs or playing with alligators in the bathtub (both true), he was escaping to the world of the imagination, creating worlds in his mind filled with strange creatures and epic journeys. This hasn't stopped.

Now a resident of Luling, Louisiana, Lee spends time every day delving into the world of Epic, the science-fiction series that has come to define him as a writer and producer. Alongside his wife, Lindsey, their son, Levi, and their dog, Jake, Lee has made it a mission to create a series that is unique in its genre—one unafraid to address the human condition while staying grounded in elements of faith.

In addition to writing, Lee works full-time for the Department of Homeland Security & Emergency Preparedness. He has also spent time as a church deacon, guitar hobbyist, and New Orleans Saints season ticket holder. He is a graduate of Louisiana College in Pineville.

LEE'S EPIC PODCAST

Want to hear more from Lee?

Check out the Epic Universe podcast (available on iTunes and EpicUniverse.com). Along with hosts Stephanie and Derek, Lee talks alien invasions, Nightmen, Novosibirsk, football, and Cajun life.

Lee also shares some secrets from behind the curtain about where he got the inspiration for the characters, settings, and conflicts in his series, as well as the future of Epic Universe.

EPIC AUDIOBOOK + YOUR EARDRUMS = MAGIC

“ What you’re going to hear in this project, which I prefer to think of as an audio ‘experience,’ is the audio equivalent of a summer blockbuster movie. Over twenty-five actors, including a narrator, played a part in this. This is ear-splitting sound effects, bombastic music, and characters shouting back and forth in the middle of a war zone. This is unlike anything you’ve ever heard.
